

# Set Up Instructions

**Step 1)** The smaller box(s) will contain your toppings, signage, serving dishes, and spoons. Arrange the plastic serving dishes as you wish for your event.

**Step 2)** Included with your sundae bar is a page of topping labels. Simply cut the page along the dotted lines and fold each label in half as shown. Place the appropriate label in front of each serving bowl to identify the topping for your guests.

**Step 3)** Fill each serving dish with topping and insert a long red spoon (provided) for serving. Set up the sign and you're ready to go!

**Step 4)** Soft Serve cups are delivered frozen. They should be allowed to sit at room temperature for 10-15 minutes to soften slightly before serving. We recommend storing them in a freezer until 10-15 minutes before you are ready to serve.

## Allergen Notice

The DQ Sundae Bar contains allergens (ingredients that some of your guests might be allergic to). Please see the enclosed allergen notice for notice cards you may cut out and display for your guests. Further information about allergens contained in DQ® products can be found by visiting [www.dq.com](http://www.dq.com).
